Farm Location:		

National Priorities Addressed

Issue Questions	Responses
Clean and Abundant Water: Water Conservation – Will the proposed project assist the producer to:	
1. a. Convert land from irrigated farming to dryland farming?	Yes <input type="radio"/> or No <input type="radio"/>
1. b. Conserve water from irrigation system improvements and result in estimated water savings of at least 5% and saved water will be available for other beneficial uses?	Yes <input type="radio"/> or No <input type="radio"/>
1. c. Increase groundwater recharge in an identified groundwater depletion area (http://water.usgs.gov/ogw/rasa/html/TOC.html)?	Yes <input type="radio"/> or No <input type="radio"/>
1. d. Implement irrigation water management (IWM-449)?	Yes <input type="radio"/> or No <input type="radio"/>
1. e. Conserve water in a project located within an approved AWEPP priority area?	Yes <input type="radio"/> or No <input type="radio"/>
1. f. Reduce water use consistent with State law or where the applicant agrees not to use any associated water savings to bring new land under irrigation production?	Yes <input type="radio"/> or No <input type="radio"/>
1. g. Mitigate the effects of drought in a project located within a designated AWEPP exceptional drought (D-4) area?	Yes <input type="radio"/> or No <input type="radio"/>
1. h. Maintain return flow irrigation for existing wildlife habitat and pollinators?	Yes <input type="radio"/> or No <input type="radio"/>
Clean and Abundant Water: Water Quality – Will the proposed project assist the producer to:	
2. a. Meet regulatory requirements relating to animal feeding operations, or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Reduce sediment, nutrients or pesticides from agricultural operations located within a field that adjoins a designated impaired water body?	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Reduce sediment, nutrients or pesticides from agricultural operations located within a field that adjoins a water body?	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Reduce depletion or sources of pollution to groundwater?	Yes <input type="radio"/> or No <input type="radio"/>
High Quality, Productive Soils Erosion Reduction – Will the proposed project assist the producer to:	
3. a. Reduce erosion to tolerable limits (Soil “T”)?	Yes <input type="radio"/> or No <input type="radio"/>
Business Lines – Conservation Implementation Additional Ranking Considerations - Will the proposed project:	
4. a. Result in implementation of all planned conservation practices within three years of contract obligation?	Yes <input type="radio"/> or No <input type="radio"/>
4. b. Leverage financial resources from an AWEPP partner to implement conservation practices?	Yes <input type="radio"/> or No <input type="radio"/>
4. c. Improve existing conservation practices or conservation systems already in place at the time the application is accepted, or will complete an existing conservation system?	Yes <input type="radio"/> or No <input type="radio"/>
4. d. Fund a “joint application” from multiple producers which address priorities of an approved AWEPP project area?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
1. Is over 50% of the application acreage within the boundaries of a hydrologic unit area (HUC) listed on Georgia EPD's 303d list of streams for non-point source pollution, designated as "NON-SUPPORTING"?	Yes <input type="radio"/> or No <input type="radio"/>
2. Will the practices installed result in a soil erosion rate of less than 2T?	Yes <input type="radio"/> or No <input type="radio"/>

3. Will the practices installed result in an improvement to the water quality by the reduction in nutrient and/or sediment loading of water bodies?	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the practices installed result in an improvement in animal health and condition?	Yes <input type="radio"/> or No <input type="radio"/>
5. Will the practices installed result in an improvement in and an increase in water conservation?	Yes <input type="radio"/> or No <input type="radio"/>
6. Will the practices installed result in a potential improvement in habitat for at risk species identified by local NRCS, Georgia DNR, and/or US Fish & Wildlife Service?	Yes <input type="radio"/> or No <input type="radio"/>
7. Will the practices installed result in a positive SCI to promote soil organic matter and soil health?	Yes <input type="radio"/> or No <input type="radio"/>
8. Will the practices installed result in an increase in energy efficiency and/or a reduction in energy consumption?	Yes <input type="radio"/> or No <input type="radio"/>

Local Issues Addressed

Issue Questions	Responses
1. If funded, will this be the first time you receive payment assistance to address the water conservation resource concern?	Yes <input type="radio"/> or No <input type="radio"/>
2. Will you use Irrigation Water Management for scheduling irrigation based on accepted UGA and NRCS methods and supply records to NRCS?	Yes <input type="radio"/> or No <input type="radio"/>
3. Is the water source supplying water to the irrigation system in this application permitted by GA EPD? Must provide copy of permit during application?	Yes <input type="radio"/> or No <input type="radio"/>
4. Does the irrigation system covered by this application water non-cropped areas and if so will you install and end gun shut-off?	Yes <input type="radio"/> or No <input type="radio"/>
5. Will this application convert an irrigation system from high pressure (over 60 psi) to low pressure (under 60 psi)?	Yes <input type="radio"/> or No <input type="radio"/>
6. Will you install and implement Remote Soil Moisture Monitoring under this application/contract?	Yes <input type="radio"/> or No <input type="radio"/>
7. Will you also install and implement Variable Rate Irrigation under this application/contract?	Yes <input type="radio"/> or No <input type="radio"/>
8. Will you also install and implement Sod Based Rotation under this application/contract?	Yes <input type="radio"/> or No <input type="radio"/>
Answer "YES" to only one (1) of questions 9, 10 and 11.	
9. Is the irrigation system covered by this application less than 10 years old?	Yes <input type="radio"/> or No <input type="radio"/>
10. Is the irrigation system covered by this application 10 to 15 years old?	Yes <input type="radio"/> or No <input type="radio"/>
11. Is the irrigation system covered by this application 16 years old or older?	Yes <input type="radio"/> or No <input type="radio"/>
Answer "YES" to only one (1) of questions 12, 13 and 14.	
12. Does the center pivot covered by this application turn at least 90% full circle?	Yes <input type="radio"/> or No <input type="radio"/>
13. Does the center pivot covered by this application turn between 75% and 90 %full circle?	Yes <input type="radio"/> or No <input type="radio"/>
14. Does the center pivot covered by this application turn less than 75% full circle?	Yes <input type="radio"/> or No <input type="radio"/>
